

GRADE THREE ENGRAVING

Built on the legacy and reliability of the model 88B, the 89B is a tribute to a bygone era in English gunmaking history. Its classic lines incorporate the best design elements of pre-war, British, boxlocks, while modern steels and precision machining capabilities provide the most in strength and reliability.

NEW HEYM 89B

A PROPER BRITISH DOUBLE...

MADE IN GERMANY.

Stocks (right or left hand) are made to measure to ensure a perfect fit. Actions are scaled in five unique sizes and are designed from the ground up for double rifle cartridges. Each caliber receives a unique barrel profile to ensure proper balance, weight distribution, and that "weight between the hands" feeling that is synonymous with a well-designed double rifle.
